

Good P2 starts with you!

The good we do depends on you. Every day, there's more evidence about the need for quality public participation in every facet of our civic and public life.

Our core values guide us to create fair, just and sustainable decisions together. We have an essential role in our society and that role has never been more timely than now. We know the impact you make, and what could be done with more talent in our field.

IAP2 USA is working to center equity in all that we do. Your gift will help us leverage capacity to focus on diversity equity and inclusion; and strengthen our training and scholarship programs.

Be part of something good: good P2 begins with you!
